SUMMARY

IT student specializing in full-stack web development, with hands-on experience building responsive websites using HTML, CSS, JavaScript, and PHP, alongside academic experience in Python-based AI/ML projects. Currently completing a Full Stack Web Development with AI certification at ISTTA, Arfa Karim Towers. Skilled in version control (Git/GitHub), database fundamentals, and project ownership from managing university group projects. Looking to contribute to real-world web development teams.

SKILLS

Web Technologies: HTML5, CSS3, JavaScript, PHP, Bootstrap, Responsive Web Design
Programming Languages: Python, C++
Database: SQL, Database Design & Management
Version Control: Git, GitHub (branching, pull requests, code review, merge conflict resolution)
Project Skills: Project Handling & Ownership (university team projects), Task Tracking (GitHub Issues)
Tools: VS Code, GitHub, Canva

PROJECTS

Course Registration & Login Portal	Class Project — Full-Stack Development
- Built a multi-page course registration website with separate student and teacher login portals using HTML, CSS, JavaScript, and PHP. - Structured course listings, navigation, and portal access to support two distinct user roles.	
CloudTraffic-AI	Personal Project — In Progress
Designing a web-based, multi-violation traffic enforcement platform using deep learning (YOLO, OpenCV) to detect speeding, wrong-way driving, and driver distraction, paired with a planned web dashboard for violation review and e-challans.	
EventPage — Team Collaboration Project	Class Project — Git/GitHub Workflow
- Built a responsive event webpage in HTML/CSS as part of a team, using individual branches, pull requests, and peer code review. - Resolved a simulated merge conflict and used GitHub Issues to coordinate task assignment across the team.	
Titanic Survival Classification	Machine Learning Project
Built a classification model using Random Forest and Logistic Regression to predict passenger survival.	
Customer Segmentation using K-Means Clustering	Machine Learning Project
Applied the Elbow Method and Silhouette Score to determine optimal customer clusters.	

WORK EXPERIENCE

IT Intern — Arch Technologies	Jul 2025 – Sep 2025
<i>Data Science Intern</i>	
- Assisted with system troubleshooting and backend configuration, collaborating with the technical team to resolve issues. - Prepared technical documentation to support ongoing development work and knowledge sharing.	

EDUCATION

BS Information Technology — University of Management and Technology, Lahore	2023 – Expected 2027
Intermediate (FSc Pre-Medical) — Kips College, Lahore	2021 – 2023
<i>1st Division, Grade B — Lahore Board</i>	
Matriculation — Allied School, Lahore	2019 – 2021
<i>1st Division, Grade A — Lahore Board</i>	

CERTIFICATIONS

- Full Stack Web Development with AI — ISTTA, Arfa Karim Towers (in progress)
- Certified Digital Media Marketer — PNY Trainings (2024)
- Internship Certificate — Arch Technologies (2025)
